*TLW="The Learner Will" and it describes what the student will be doing in class on that day. This description should be specific. In Algebra I, the TLW could be "Work in groups to work polynomials on white boards; present to class" The objective is the TEKS/TAKS/Project CLEAR objective they are addressing. In Algebra I, the objective could be, "TEKS 4.a: Find function values, simplify polynomial expressions". Or in English II, the TLW could be, "Finish 1st draft of essay and work in pairs to proof read and provide feedback using rubric" and the objective might be, "TEKS 1.c: develop drafts both alone and collaboratively by organizing and reorganizing content and by refining style to suit occasion, audience and purpose."
