

## Printing Imag

Week of Jan 4<sup>th</sup>

This will be a week long assignment

In this Photoshop design assignment, we are going to be creating a striking, dark-themed piece with colorful highlights using stock photos, textures, and Photoshop brushes. The scene is built around a raven and a clock that represents fate and waiting for your time to come. With this tutorial, however, we will be depicting this theme in a fresh and edgy way that will give you some new things to try in Photoshop!
